**CORRECTION TO PATENT**

**Corrections to the Claims**

Claim 13 should read as follows:

**13. A screen system according to claim 12, wherein rotation of one end of the said at least one screen causes an end of the longitudinally arranged members to rotate relative to the other end of the longitudinally arranged members such that the slot size is capable of being varied.**

**REMARKS**

The error noted above was found in the printed copy of U.S. Patent No. 7,389,819 B2. The change that the Applicants are submitting herewith is intended to correct the error.

The error noted above occurred at the United States Patent and Trademark Office when the claims were renumbered by the Office. Respectfully submitted,
